

2025 CCA|CRP Board Applicant Biographies

Lance Jones

I would like to continue my service on the Board. I have been on the board for almost 2 years. My wife and I bought our cabin 9 years ago and have become full time residents. My family loves our neighborhood and all it has to offer. We enjoy all of the seasons, spending time at the river and lakes during the summer and snowmobiling in the winter. I value our neighborhood and helping to maintain our quality of life here.

I worked for Boeing for 33 years. I started out as a mechanic, spent time in management and finished my career as a Customer Quality Service manager. I worked closely with different airline customers guiding the customer through the build cycle of their aircraft all the way through delivery and flyway. This gave me a lot of experience working within groups, working with government entities and the airlines themselves.

Sonya Kraski

I would like to serve as your Board representative to support the integrity and values of our community. My husband and I have been property owners in Chiwawa River Pines for 17 years. We love spending time here and appreciate all that our community offers, including the river access points, the ability to snowmobile right from our driveway, and the excellent water service. Last year, I served on the Bylaws & Covenants Committee and gained a deeper understanding of the association's processes. I worked in the legal field for well over 30 years and, during that time, served on numerous boards, including a financial institution and Rotary, and held the position of board president for both a statewide organization and a non-profit agency. I would be honored to serve as a Board member for the Chiwawa Communities Association to ensure the continuation of sound policies and practices, which are key to the valuable services that we all benefit from.

Tamara Mckee

I'm a proud new member of the Chiwawa Pines community, where my husband and I found the perfect place to fulfill our dream of cabin ownership. We wanted a home where our family could gather and make lasting memories in the great outdoors, and that is exactly the space we found here. I've been actively attending HOA meetings to become more informed about the community and appreciate the board's efforts in making this a great place to live and recreate. With experience serving in executive board positions, I'm eager to contribute my skills to support and enhance the Chiwawa Pines neighborhood.

David Bodmer

David Bodmer is the founder, owner and current president of D|B Solutions – a design/build Mechanical Contracting firm serving the greater Puget Sound. D|B Solutions has been in business since 2007 with David at the helm. Prior to starting D|B Solutions, David was on the executive staff of a major mechanical contractor firm for several years. A position he achieved after a decade in engineering, sales, and project management roles in the construction industry. In addition to overseeing design, construction, and maintenance of building mechanical systems, David has overseen project budgets and company financials for his entire career.

David entered the construction industry after obtaining a degree in construction management in 1996 following an honorable discharge from the US Navy. He served six years of active duty as a nuclear power plant mechanic, participating in two overseas deployments to the middle east; Operation Desert Storm and Desert Shield. David served an additional two years in the Navy Reserves as a Construction Mechanic in the Seabees.

Throughout David's career he has been active in several industry organizations; attending and teaching continuing education courses in both technical and business aspects of the industry. He currently holds a position on both the Code Committee and the Legislative Committee, offering technical assistance for the Sheet Metal and Air Conditioning Contractors of North America (SMACNA).

David and his wife Tammy live full time in Lake Forest Park, Washington, and have owned property in Chiwawa River Pines since 2016. David and Tammy have two adult daughters who grew to love outdoor activities in and around Lake Wenatchee and the Stevens Pass corridor. Having property in the area is a natural culmination of decades of participating in outdoor activities in the North Cascades.
